Sameer Awaji

SOFTWARE ENGINEER | WEB & MOBILE | PRODUCT & MARKETING EXPERIENCE

sameer2study@gmail.com | github.com/SameerAwaji | linkedin.com/in/sameer-awaji-6a0986211

PROFILE

Software engineer working across Flutter, Laravel, web, APIs, Arabic UX, backend workflows, and release testing. I began freelance work with Maeen in 2023, worked in product at Nana, and then led marketing at MIP while rebuilding its website. Since April 2026, I have worked at Mrasim, where QARAR is one of the projects I contribute to.

CORE CAPABILITIES

Engineering	React, Next.js, TypeScript, Flutter, Laravel, MySQL, Supabase, REST APIs
Product work	Requirements, user journeys, stakeholder feedback, UAT, QA, CI and release checks
Marketing	Marketing management, SEO, web performance, content and campaign coordination
Languages & tools	Arabic and English, Git, Figma, browser and simulator testing

EXPERIENCE

Mrasim

Apr 2026 - Present

- QARAR is one of the projects I work on at Mrasim. I coordinate Flutter and Laravel contracts across Arabic seeker and expert journeys, authentication, decisions, realtime updates, and releases.
- Recent work includes email OTP, safe navigation, draft recovery, identity-bound sessions, SSE reconnects, account step-up, queued decision events, and contract-aligned release checks.

Marketing Manager - MIP Marketing Agency

2025 - Mar 2026

- My main role was Marketing Manager. I also handled hands-on web development and connected the website work to the agency's marketing goals.
- Rebuilt the site in Next.js, improving its Lighthouse score from 77 to 100 and Largest Contentful Paint from 4.8s to 0.8s.

Product Manager Intern - Nana

Feb 2025 - Apr 2025

- My first formal product role, covering engagement ideas, product documentation, competitor research, cross-functional work, and user acceptance testing.

FREELANCE WORK

Freelance Developer - Maeen

2023 - Present

- Develop and maintain Maeen's React and Supabase website, database-backed forms, and internal workflows as an independent freelancer.
- For the latest summer program, delivered a custom sign-up form and team dashboard used by 40+ active team users; the wider program benefited 1,400+ students.

EDUCATION

Bachelor of Software Engineering - University of Jeddah

2024

GPA 4.48 / 5.0 | Focus: web development, algorithms, and software architecture

SELECTED OUTCOMES

77 to 100
Lighthouse score on MIP

4.8s to 0.8s
LCP on the MIP rebuild

40+ / 1,400+
Team users / students in the latest Maeen program

Metrics relate to the projects and responsibilities described above.
