PROFILE

Software engineer with experience in freelance development, product management, marketing, and web and mobile products. I began freelance work with Maeen in 2023, completed a Product Manager internship at Nana in early 2025, then joined MIP mainly as Marketing Manager while also developing its website. Since April 2026, I have worked at Mrasim, where QARAR is one of the projects I contribute to.

CORE CAPABILITIES

Engineering	React, Next.js, JavaScript, Flutter, Laravel, Supabase, REST APIs
Product work	Requirements, user journeys, stakeholder feedback, UAT, QA, release checks
Marketing	Marketing management, SEO, web performance, content and campaign coordination
Languages & tools	Arabic and English, Git, Figma, AI-assisted research and implementation

EXPERIENCE

Mrasim

Apr 2026 - Present

- QARAR is one of the projects I work on at Mrasim. My responsibilities include product clarification, Flutter and Laravel coordination, Arabic UX, authentication flows, QA, and release preparation.
- Write user flows and acceptance criteria, coordinate app and API changes, and test the end-to-end experience.

Marketing Manager - MIP Marketing Agency

2025 - Mar 2026

- My main role was Marketing Manager. I also handled hands-on web development and connected the website work to the agency's marketing goals.
- Rebuilt the site in Next.js, improving its Lighthouse score from 77 to 100 and Largest Contentful Paint from 4.8s to 0.8s.

Product Manager Intern - Nana

Feb 2025 - Apr 2025

- My first formal product role, covering engagement ideas, product documentation, competitor research, cross-functional work, and user acceptance testing.

FREELANCE WORK

Freelance Developer - Maeen

2023 - Present

- Develop and maintain Maeen's React and Supabase website, database-backed forms, and internal workflows as an independent freelancer.
- Work directly with stakeholders on requirements and feedback; delivered an internal dashboard built to support 60+ users.

EDUCATION

Bachelor of Software Engineering - University of Jeddah

2024

GPA 4.48 / 5.0 | Focus: web development, algorithms, and software architecture

SELECTED OUTCOMES

77 to 100

Lighthouse score on MIP

4.8s to 0.8s

LCP on the MIP rebuild

60+

People supported by Maeen dashboard
