PROFILE

Product-minded software engineer with experience across freelance product development, product management, marketing leadership, and hands-on web and mobile delivery. After a Product Manager internship at Nana, I joined MIP primarily as Marketing Manager while also owning web-development outcomes. Since April 2026, I have worked at Mrasim on products including QARAR. Maeen has been an independent freelance project since 2023.

CORE CAPABILITIES

Engineering	React, Next.js, JavaScript, Flutter, Laravel, Supabase, REST APIs
Product & delivery	Requirements, user journeys, stakeholder iteration, UAT, QA, release verification
Marketing	Marketing management, SEO, web performance, content and campaign coordination
Languages & tools	Arabic and English, Git, Figma, AI-assisted research and implementation

EXPERIENCE

Product & Software Delivery - Mrasim

Apr 2026 - Present

- Contribute to Mrasim product work including QARAR across product clarification, Flutter/Laravel coordination, Arabic-first UX, authentication journeys, QA, and release preparation.
- Translate ambiguous requirements into scoped user paths, implementation decisions, and real-path verification evidence.

Marketing Manager - MIP Marketing Agency

2025 - 2026

- Worked primarily in marketing management after Nana while also handling hands-on web development and aligning the agency website with its marketing goals.
- Rebuilt the site in Next.js, improving Lighthouse performance from 77 to 100 and Largest Contentful Paint from 4.8s to 0.8s.

Product Manager Intern - Nana

Feb 2025 - Apr 2025

- Contributed to customer-engagement concepts, cross-functional product documentation, competitive analysis, and user acceptance testing.

Freelance Product & Web Development - Maeen

Since 2023

- Built and iterated on the React/Supabase public product, database-backed forms, and stakeholder-facing workflows as an independent freelance project.
- Delivered an internal progress dashboard supporting 60+ users while managing requirements and feedback directly with stakeholders.

EDUCATION

Bachelor of Software Engineering - University of Jeddah

2024

GPA 4.48 / 5.0 | Focus: web development, algorithms, and software architecture

SELECTED OUTCOMES

77 to 100
Lighthouse performance

4.8s to 0.8s
Largest Contentful Paint

60+
Users supported by internal software

Selected outcomes are scoped to the work described; project contributions do not imply sole authorship.
